RE: Partial Bond Release for Bown Stone's Desert Sienna Quarry;
T. 21 S., R. 8 E., Section 6

Dear Mr. Western:

The Bureau of Land Management (BLM) inspected the reclamation efforts for the Bown Stone Desert Sienna Quarry (UTU-79570) on August 20, 2013. Earthwork efforts were inspected for the mine area. The surface contouring looks good and should promote plant growth after seeding.

The current bond for the Bown Stone Desert Sienna Quarry is \$20,700. I recommend a partial bond release for the entire project for the completed earthwork in the amount of \$14,700. A bond of \$6,000 will remain until the vegetation meets the reclamation standard.

As detailed above, the BLM approves the partial bond release for the Bown Stone Desert Sienna Quarry. If you have any questions or comments please contact Chris Conrad at (435) 636-3612.

Sincerely,

ACTING FOR Patricia A. Clabaugh
Field Manager
